

**AMENDMENTS TO THE CLAIMS**

Please amend the claims so that they read as follows:

Claims 1 - 17 (canceled)

18. (New) A compound comprising:

(Cpd #54)

or a salt thereof.

19. (New) The compound of claim 18 wherein said salt is a sodium salt.

20. (New) A composition comprising:

(A) at least one active agent; and

(B) the compound of claim 18.

21. (New) The compound of claim 20 wherein said salt is a sodium salt.

22. (New) The composition of claim 20, wherein said active agent is selected from the group consisting of a biologically active agent, a chemically active agent, or a combination thereof.

23. (New) The composition of claim 20, wherein said biologically active agent comprises at least one protein, polypeptide, peptide, hormone, polysaccharide, mucopolysaccharide, carbohydrate, or lipid.

24. (New) The composition of claim 23, wherein said biologically active agent comprises a protein, polypeptide or peptide.

43. (New) A dosage unit form comprising

(A) a composition as defined in claim 20; and

(B) (a) an excipient  
(b) a diluent,  
(c) a disintegrant,  
(d) a lubricant,  
(e) a plasticizer,  
(f) a colorant,  
(g) a dosing vehicle, or  
(h) any combination thereof.

44. (New) The dosage unit form of claim 43 wherein said salt of said compound is a sodium salt.

45. (New) The dosage unit form of claim 43, comprising a powder.

46. (New) The dosage unit form of claim 43 comprising a tablet.

47. (New) The dosage unit form of claim 43 comprising a capsule.

48. (New) The dosage unit form of claim 43 comprising a liquid.

49. (New) The dosage unit form of claim 43, wherein said active agent is selected from the group consisting of a biologically active agent, a chemically active agent, or a combination thereof.

50. (New) The dosage unit form of claim 49, wherein said biologically active agent comprises at least one protein, polypeptide, peptide, hormone, polysaccharide, mucopolysaccharide, carbohydrate, or lipid.

51. (New) The dosage unit form of claim 50, wherein said biologically active agent comprises a protein, polypeptide or peptide.

52. (New) The dosage unit form of claim 50, wherein said biologically active agent comprises a mucopolysaccharide.

53. (New) The dosage unit form of claim 43, wherein said dosing vehicle is selected from the group consisting of water, 1,2-propane diol, ethanol, olive oil or any combination thereof.

54. (New) The dosage unit form of claim 43, wherein said biologically active agent is selected from the group consisting of: growth hormone, growth hormone-releasing hormones, interferons, interleukin-1, interleukin-2, insulin, insulin-like growth factor(IGF), heparin, calcitonin, erythropoietin (EPO), atrial natriuretic factor, antigens, monoclonal antibodies, somatostatin, protease inhibitors, adrenocorticotropin, gonadotropin releasing hormone, oxytocin, leutinizing-hormone-releasing-hormone, follicle stimulating hormone, glucocerebrosidase, thrombopoietin, filgrastim, prostaglandins, cyclosporin, vasopressin, cromolyn sodium, vancomycin, desferrioxamine (DFO), parathyroid hormone (PTH), anti-microbials agents, anti-fungal agents; analogs, fragments, mimetics and polyethylene glycol (PEG)-modified derivatives of these compounds; and any combination thereof.

55. (New) The dosage unit form of claim 54, wherein said biologically active agent comprises a growth hormone, interferon, insulin, heparin, cromolyn sodium, an antigen, an anti-microbial agent, calcitonin, parathyroid hormone, erythropoietin, and combinations thereof.

56. (New) The dosage unit form of claim 54, wherein said growth hormone comprises human growth hormones (hGH), recombinant human growth hormones (rhGH), bovine growth hormones, porcine growth hormones, or a combination thereof.

57. (New) The dosage unit form of claim 54, wherein said biologically active agent comprises interferon.

58. (New) The dosage unit form of claim 54, wherein said biologically active agent comprises insulin.

59. (New) The dosage unit form of claim 58, wherein said insulin comprises porcine insulin, bovine insulin, human insulin, and human recombinant insulin.

parathyroid hormone (PTH), anti-microbial agents, anti-fungal agents; analogs, fragments, mimetics and polyethylene glycol (PEG)-modified derivatives of these compounds; and any combination thereof.

80. (New) The method of claim 79, wherein said biologically active agent comprises a growth hormone, interferon, insulin, heparin, cromolyn sodium, an antigen, an anti-microbial agent, calcitonin, parathyroid hormone, erythropoietin, and combinations thereof.

81. (New) The method of claim 79, wherein said growth hormone comprises human growth hormones (hGH), recombinant human growth hormones (rhGH), bovine growth hormones, porcine growth hormones, or a combination thereof

82. (New) The method of claim 79, wherein said biologically active agent comprises interferon.

83. (New) The method of claim 79, wherein said biologically active agent comprises insulin.

84. (New) The method of claim 83, wherein said insulin comprises porcine insulin, bovine insulin, human insulin, and human recombinant insulin,

85. (New) The method of claim 79, wherein said biologically active agent comprises heparin.

86. (New) The method of claim 85, wherein said heparin comprises low molecular weight heparin, very low molecular weight heparin, ultra low molecular weight heparin, heparinoids, dermatans, chondroitins, or a combination thereof.

87. (New) The method of claim 86, wherein said biologically active agent comprises low molecular weight heparin.

88. (New) The method of claim 79, wherein said biologically active agent comprises cromolyn sodium.

89. (New) The composition of claim 88, wherein said cromolyn sodium comprises sodium chromoglycate, disodium chromoglycate or a combination thereof.

90. (New) The method of claim 79, wherein said biologically active agent comprises an antigen.

91. (New) The method of claim 79, wherein said biologically active agent comprises an anti-microbial agent.

92. (New) The method of claim 79, wherein said biologically active agent comprises calcitonin.

93. (New) The method of claim 92, wherein said calcitonin comprises salmon calcitonin, eel calcitonin, human calcitonin or a combination thereof.

94. (New) The method of claim 79, wherein said biologically active agent comprises parathyroid hormone.

95. (New) The method of claim 79, wherein said biologically active agent comprises erythropoietin.

96. (New) A method for preparing a composition, said method comprising mixing:

- (A) at least one active agent;
- (B) at least one compound as defined in claim 18; and
- (C) optionally, a dosing vehicle.

97. (New) The method of claim 96 wherein said salt of said compound is a sodium salt.

98. (New) The method of claim 96, wherein said active agent is selected from the group consisting of a biologically active agent, a chemically active agent, or a combination thereof.

99. (New) The method of claim 98, wherein said biologically active agent comprises at least one protein, polypeptide, peptide, hormone, polysaccharide, mucopolysaccharide, carbohydrate, or lipid.

100. (New) The method of claim 99, wherein said biologically active agent comprises a protein, polypeptide or peptide.

101. (New) The method of claim 99, wherein said biologically active agent comprises a mucopolysaccharide.

102. (New) The method of claim 98, wherein said biologically active agent is selected from the group consisting of: growth hormone, growth hormone-releasing hormones, interferons, interleukin-1, interleukin-2, insulin, insulin-like growth factor(IGF), heparin, calcitonin, erythropoietin (EPO), atrial naturetic factor, antigens, monoclonal antibodies, somatostatin, protease inhibitors, adrenocorticotropin, gonadotropin releasing hormone, oxytocin, leutinizing-hormone-releasing-hormone, follicle stimulating hormone, glucocerebrosidase, thrombopoietin, filgrastim, prostaglandins, cyclosporin, vasopressin, cromolyn sodium, vancomycin, desferrioxamine (DFO), parathyroid hormone (PTH), antimicrobials, anti-fungal agents; analogs, fragments, mimetics and polyethylene glycol (PEG)-modified derivatives of these compounds; and any combination thereof.
